

## WARRIOR LIBRARIAN'S ASTROLOGY GUIDE 2006

 <p><b>Aries</b> March 20-April 20</p>	<p><b>Career:</b> There are two eclipses that will affect you. The first, in mid-March will make you somewhat testy, not that anyone will notice. The second in late September will make you want to clear out your desk and take any outstanding leave. But as you've been doing this for years, everyone will ignore it.</p> <p><b>Personal life:</b> By New Year's Day 2007, you'll look back on 2006 and heave a large sigh. There will be a number of changes that have occurred, many of them not especially thrilling.</p>
 <p><b>Taurus</b> April 20 - May 21</p>	<p><b>Career:</b> The movement of the planets between will cause you to be much more focussed on romance than is normal for you. You should not neglect the other genres in your collection development planning.</p> <p><b>Personal life:</b> Travel in on the cards for you. You may be put in charge of hauling trash out to the dumpster, so make sure you have a good stock of really comfy shoes.</p>
 <p><b>Gee!Am I?</b> May 21-June 21</p>	<p><b>Careers:</b> From early January through the beginning of March there will be a major reckoning in financial matters. Make sure you've kept all receipts and that your invoices are efficiently filed.</p> <p><b>Personal life:</b> There are major changes concerning a friendship in April. You should still insist that the book be returned. That person never really liked you, you know.</p>
 <p><b>Cataloguer</b> June 21-July 20</p>	<p><b>Career:</b> You know that you have a dark side, and the movements of the moon at times of critical stress will make you a little more paranoid than usual. This is actually a good thing, because the people you feel are just using you actually are.</p> <p><b>Personal life:</b> You're a librarian, right? You're not going to have a personal life for at least 2 more years. Maybe never.</p>
 <p><b>Lie Low</b> July 21-August 23</p>	<p><b>Career:</b> Mercury retrogrades 3 times this year: March 2nd to March 25th; July 4th to July 29th, and October 28th to November 18th which is really important! Good luck, and make sure you don't pick up any heavy boxes on those days. Check your medical insurance ASAP.</p> <p><b>Personal life:</b> I'm just so sorry. But it would not be professional of me not to warn you that Pluto moves thru 24, 25, 26 degrees of Sag, while Neptune traverses 15-19 of Aquarius. Uranus starts at 7 of Pisces, moves to 14 then retrogrades and winds up at 11 degrees by the end of the year.</p>
 <p><b>Vertigo</b> August 23-September 23</p>	<p><b>Career:</b> Here's a nice stellium in Vertigo, if you count the asteroids so there's lots of archetypal energy to tap into. Try some ritual at this time. Virgin sacrifice is not recommended, especially during library opening hours.</p> <p><b>Personal life:</b> For you, Vertigo, Aries is your 8th house of mate's money, the values of your mate, 2nd child, mom's mom and dad's dad. Any of these people can be your focus at this time. Sometimes an inheritance is shown here, or alimony. Buy clothes.</p>
 <p><b>Libraria</b> September 23-October 23</p>	<p>Saturn is in your 11th house of money of the career (and dad), friends and ambitions, while Pluto is in your 3rd house of communication and short travel. Which we weren't sure whether belonged to your career aspects or your personal life. We're leaving this major decision up to you. But to make up for this small deficit in our service, we'll tell you your lucky color is aquamarine with just a hint of khaki, making your lucky number is 127 255 212. Also, you are going to meet lots of people over the year. Remember to look both ways before crossing roads and floss regularly.</p>
 <p><b>Scorpio</b> October 23-November 23</p>	<p><b>Career:</b> Pluto has moved on from your own sign (1984-1996) and is now winding down in Sagittarius, your solar second house, so there can be power struggles over money. Collect data NOW about the budget allocations for libraries similar to your own.</p> <p><b>Personal life:</b> Jupiter, planet of luck and growth left Libraria and entered Scorpio in 2005 where it will stay until November of 2006. Enter all possible games of chance. You probably won't win, but you can certainly give it your best shot!</p>
 <p><b>Scragittarias</b> November 22-Dec 22</p>	<p><b>Career:</b> Neptune is in your 3rd house of communication, perhaps leading you to write poetry or fiction. Don't be tempted to share it with your colleagues, who will only ridicule it and you. Also don't submit it to publishers. It's really awful.</p> <p><b>Personal life:</b> Jupiter in the meantime, squares Neptune on January 28th, March 16th, and September 24<sup>th</sup>; it then squares Saturn on June 22nd and October 25th. Don't get out of bed on those days especially if you're on Desk Duty.</p>
 <p><b>Crapricorn</b> Dec 22-January 19</p>	<p><b>Career:</b> Uranus is your third house, which usually opens up your communication skills. But because Jupiter is in your 6th house of work, the T square is fraught with intrigue on the job. Gee, but isn't it great to finally have some excitement around the place?!!!</p> <p><b>Personal life:</b> Uranus goes retrograde on June 19th and goes direct on November 20th. You could die on either of those days. Be careful. Be nice to your mom. Make sure your will is current.</p>
 <p><b>Hackqueries</b> Jan 20-Feb 19</p>	<p><b>Career:</b> Neptune is now in Aquarius. Combined with Uranus, it's been a bumpy ride the last 8-15 years. So you're pretty much used to this. Which is lucky because you're going to get more of the same for a long, long time.</p> <p><b>Personal life:</b> Here's the good news - Neptune is in your 1st house of Self, making you more glamorous and ethereal. The bad news is that your library salary isn't sufficient to make the most of this opportunity.</p>
 <p><b>Pieces</b> Feb 20- March 19</p>	<p><b>Career:</b> Your power issues are around abandonment and betrayal, which isn't new. If you don't like it, try a different career, like ... ummm. We'll get back to you on that one.</p> <p><b>Personal life:</b> You're pretty sick of the fish jokes whenever astrology comes up, regardless of where the planets are. People will have been dropping you lines for years, and your office is like a sardine can. Get over it.</p>
